possession of the dog or its face value in cash and for damages and \$27.90 costs. Eltz claims that he had never been served with a summons in the case and he appealed to Kirkwood, but the justice refused to do it and Eltz appeals to the district court to correct the judgment.

The Case Against Hamberly.

The prosecution seems to have a pretty strong case against John Hamberly, the man who was arrested Monday evening on the charge of arson. Hamberly is accused of having set fire to the dairy stables of Robert Rand in Park canyon, about two years ago, which burned three head of cows and a lot of property. Hamberly had been in Rand's employ up to a few days before the fire, but had been discharged. He threatened to get even with Rand and also told a hired girl that he would burn the stables down. On the morning of the fire he was seen in the mountains near by some wood choppers. He was on the way over the range and they asked him what he was doing out that early in the morning. He said he was hunting, although he had no gun with him and when he was asked where his gun was he made some excuse and continued on his way across the range. That was the last seen of him until he turned up in Butte a few days ago and on Tuesday he was seen on the streets and recognized by one of the wood choppers who had met him on the morning of the fire. His presence in town was made known to the police and he was arrested under a warrant that had been out for him for a long time.

Suit Dismissed.

By consent of both sides, the suit of William Thompson against Henry G. Hawes for possession of the books and records of the old J. R. Boyce, Jr., company, and for damages, was yesterday dismissed as settled, each side paying its own costs.

Fees Collected

The sheriff's monthly report was filed yesterday, showing that during May \$380.10 was collected in fees, of which \$134.85 was paid out in expenses. The remainder, \$245.25, was paid over to the treasurer.

John E. Lloyd yesterday brought suit against Lawyer D. Robertson Barlow for \$500 and interest, due on a note dated Oct. 19, 1892, and made payable four months after date. An attachment was levied on the defendant's library.

GIVE IT A TRIAL.

Some Minnesota People Are Willing to

Work. A long Under the Silver Standard

H. W. Turner, general manager of the

Butte General Electric company, re-

turned yesterday from a trip of several

weeks to St. Paul, Duluth and other

cities of Minnesota. Mr. Turner found

that there is some truth in the report

that the silver sentiment is stronger

in that state than one would conclude

from the attitude of the most of the

papers of that state. He found that

among the farmers and small business

men there is a strong feeling in favor

of silver and among others the senti-

ment is growing. Business is not too

good there, and many expressed them-

selves as about ready to give the silver

side of the question a trial. They had

been listening to the goldbugs and had

stood in with them but no relief had

been afforded. It seemed to them that

it might be well now to try the other

side of the question and see what the

result might be. Some of them ex-

pressed the opinion that in any event

the country could not be ruined by

trying free coinage of silver for two or

three years and they could not be much

worse off. Mr. Turner enjoyed his trip

very much and is looking well.

The Centerville Social club will give

a concert and dance at their hall Fri-

day evening, June 5th. Admission, 25

cents.

The Y. L. I. will give a leap year

party at the Y. M. I. parlors Friday

evening, June 5. Tickets, \$1. Can be

had at 222 North Main street, also at

the door in the evening.

HER MANY TROUBLES

Jennie Hall Is in the Asylum, But
Must Return to Butte.

A VERY INTERESTING CASE

Mr. Winters Addresses a Myster-
ious Remark to Physician Al-
ford—Matters Considered by
the County Commissioners.

The county commissioners yesterday received a rather startling reminder that Jennie Hall, the eccentric young woman who was sent to the asylum last February, is still in existence. The young woman whose name also appears on the asylum records as Jennie Boies had a weakness for old men and got in trouble several times on their account. A short while before she was sent to the asylum she accused a well-known old man with having wronged her and demanded reparation by marriage, which he refused and then charged her with insanity. At the examination she protested that she was not insane, but the commissioners concluded that she was crazy and ordered her sent to the asylum.

Yesterday the county commissioners received a communication from Attorney General Haskell stating that it was evident the young woman was in an interesting condition at the time she was committed to the asylum and that she would shortly become a mother. The state, said Mr. Haskell, cannot keep her any longer at any asylum and there is no suitable place there to keep her away from other patients and no place or nurses for that purpose; therefore, it becomes necessary to turn her over to the officers of Silver Bow county, and the commissioners were requested to be ready to receive her. The attorney general's communication was referred to County Attorney Wines.

The triangular controversy going on between the county auditor, commissioners and the county physician sometimes brings out matters in which the public have an interest. Mr. Winters has written a very severe letter in reply to Dr. Alford's monthly report, in which he says the doctor was not a resident of the state for one year prior to his appointment and consequently is not eligible to the office he is now holding. "You know and I know why you got it," is a rather mysterious remark contained in Mr. Winters' latest communication.

Professor Moore, one of the library trustees, was before the board of commissioners yesterday to suggest that the medal and diploma awarded Silver Bow county by the world's fair commissioners be placed in the public library for exhibition and safe keeping and an order was made in accordance with the suggestion.

The county treasurer was authorized to transfer the surplus moneys in the several county funds except the school fund to such fund or funds as he may deem to be best for the interest of the county.

Assessor Warfield made his monthly report yesterday showing that in April and May he collected and paid over to the county treasurer taxes as follows: On personal property, \$4,056.84; road taxes, \$13,221.15; poll tax, \$11,127.30; total, \$28,405.29.
